

The Living Arts & Science Center

2022 - 2023 Impact Report

Our Mission

The Living Arts & Science Center's mission is to engage the community in participation in the arts and sciences through education, discovery, exploration, and creativity.

Creating Community Impact

Investing in the Living Arts & Science Center supports our hands-on, interactive arts and science programs, and:

- Elevates the voices and careers of local artists
- Provides after-school programs in local schools
- Creates community partnerships with schools, venues, and organizations

Impact Highlights

2,000+

Attended Our Day of the Dead Celebration

480

Planetarium Shows

"LASC offered more than just a summer camp experience for our children – it was an immersive, creative, fun, and supportive learning environment. They learned new skills, made friends, and were excited to return each day!"

-Leslie Woltenberg
