Are you a Member? New membership benefits make it easy to support the art & science programs you love!

FARISH PLANETARIUM

Suggested $2 per person donation
A Colorful, Lively Celebration of Life, November 1st 5-9pm
Festival del Dia de los Muertos | Day of the Dead Festival
A New Planetarium show every Friday with showtimes at 7pm and 8pm. Farish After Dark (starting in October) features music and dance performances, traditional food, hands-on crafts, art exhibits and a gallery talk by the artists, a candlelight parade, and an exhibition of altars in the Old Episcopal Burying Ground. A beautiful cultural event for the whole family.

BACK TO THE MOON

What’s on your bucket list? This Saturday we’ll think about the Moon, the Sun, and the stars. We’ll explore space through creative projects, use stop animation to make your own "old fashioned" movie player. From Earth to the Moon, we’ll create short stop motion animations and play them back in the gallery. Experiment with motion, sound, light, and audience perception. Imagine the expanse of space, the birth of the universe, and the origins of life from a cosmic perspective.

FAMILY WORKSHOP: ENGINEERING LEGO ROBOTS

Climb aboard a historic vessel and chart the deep sea, caves, glaciers and tropical rainforests! Use LEGO! From Earth to the Moon, we’ll explore extreme environments using LEGO robots. Test their strength in the observation stations. You can even imagine space from the International Space Station. You can even imagine space from the International Space Station. Stop by and EXPLORE!
